

GOSS PACESETTER 1000/1100

These high-speed Goss® Pacesetter® Saddlestitcher models accommodate traditional magazine-size signatures. Horizontal or vertical hoppers are independently driven, simple to operate and provide superior signature control. With optional Omniflex™ controls, the Pacesetter 1000 and 1100 can also direct and track creation of each book, match addresses and personalized messages to specific books, and inkjet those messages almost anywhere.

Features

- Traditional magazine-size signatures
- One-up production
- Advanced selective binding and inkjet personalization
- High-performance horizontal or vertical hoppers
- Three-gripper main drums and single-gripper transfer and opener drums for superior signature control
- On-the-fly hopper adjustments without tools
- Reflex II stitcher
- Integrated mechanical and electronic sensors to ensure product integrity
