

Infeed Registering Center Plate

For HT Trimmers

This unit will pre-register books against the infeed side guide prior to moving through the front knife. This allows the book to be pre-positioned to the stationary jogging plate on the the book's good side. Prevents using the jogger to physically move the book over to the plate against the weak side.

- Pre-register books
- Reduces book movement
- Enhances trim quality
- Excellent tool for Selective production
- Improves performance when trimming varying width signatures

Features:

- Bolt in installation
- Replaces existing center plate
- Quick adjust from Topside
- Height & Angle adjustments
- Reversible for left or right side
- Hard Coated Aluminum
